

PADAUK

Pterocarpus soyauxii

Our Padauk is sourced from Africa and is frequently used in Millwork projects such as furniture, tool handles, musical instruments, and other small specialty wood products. It has excellent resistance to termites and other insects. Padauk heartwood ranges from pinkish-orange to deep brownish red. Most pieces tend to start reddish-orange when freshly cut, darkening substantially over time.

Appearance & Grain

Can Range From Pale Pinkish Orange to Deep Brownish Red.
Straight Grain, Coarse and Open Texture.
